

Lab 2

Lukas Finkbeiner

February 23, 2020

Abstract

This is a great place to have a to-do section, because I prefer to write abstracts at the end of the writing process.

- * Every Python function that I write must have docstrings for full grade

- * I need to pull from my repo to my lab computer by the time I submit my paper.

- * Ask Professor about the permissions thing (page 3), to make sure there are no technical difficulties.

- * Also ask the Professor what he recommends as to inclusion of docstrings in the lab report in the most clean, organized, and professional manner.

1 Introduction and Background

Block diagram of the telescope electronics. Fortunately, it seems like the professor took care of most of this for you in lecture, February 11.
